ABOUT ME

My name is Kuan-Yu Hou, also known as Doreen. I am 25 years old and holding an MBA at National Taipei University. Currently, I am pursuing my second master's degree in Data & Business Analysis at Rennes School of Business. I'm specializing in Data Business Analytics, I also have a strong interest in cloud computing.

EXPERIENCE

Assistant Cloud Solution Architect 02/2024 - 06/2024 President Information CORP Taipei, Taiwan

- Focused on cloud architecture and cost optimization recommendations, as well as contributed to the creation of SOPs for cloud system operations.
- Designed cloud architecture diagrams based on client requirements, and implemented high-availability solutions to enhance system reliability.

Market Research Intern 03/2023 - 01/2024 INSIGHTXPLOER LIMITED Taipei, Taiwan

- Design and establish various market questionnaires.
- I created and implemented various market questionnaires, configuring them within the system for efficient data collection.
- Observe the data analysis charts of the questionnaire results and explain the business logic.

Engineer Intern 03/2022 - 07/2022 Industrial Technology Research Institute(ITRI) Taipei, Taiwan

- I was responsible for machine learning projects, focusing on training and optimizing models based on Recurrent Neural Network (RNN) techniques.
- I optimized the models to improve performance, generated data and conducted thorough analyses.
